Who Are We?

3DVRAI Solutions is a pioneering software company that combines artificial intelligence and 3D technologies. We are the industry leader in AI-powered 3D visualization.

- We provide innovative digital solutions for architecture, engineering, real estate, and industrial sectors.
- Headquartered in Turkey, we serve as a technology company with a global vision through our partnerships in Europe.
- We develop tailored solutions for every project with our customer-centric approach.

Our Core Service Areas

 AI Software Development

 AI-Assisted Design

 3D Architectural Visualization

 Data Analysis and Reporting

 Real Estate Virtual Tour Solutions

 Virtual Reality (VR) Applications

 Custom Software Development

 Augmented Reality (AR) Solutions

 Cloud-Based AI Platforms

 Industrial 3D Modeling

© 2026 3DVRAI Yapay Zeka Yazılım ve Bilişim Teknolojileri LTD.Sti.

Our AI Software Services

 Automating business processes with Machine Learning and Deep Learning models.

 AI-powered automatic 3D model generation and optimization technologies.

 Intelligent assistant and chatbot solutions based on Natural Language Processing (NLP).

 Future-oriented business intelligence solutions with predictive analytics

 Intelligent analysis systems with image recognition and processing algorithms.

 Real-time AI processing infrastructure and API integrations.

 Industrial 3D Modeling

Our 3D Visualization and VR/AR Solutions

 Photorealistic 3D render and visualization services for architectural projects.

 Opportunity to experience structures that have not yet been built with Virtual Reality.

 Showcasing real estate projects to the world with a 360° virtual tour.

 Bringing your projects to life with animation and walkthrough videos.

 Interactive 3D experience on mobile with Augmented Reality applications.

 Platform-independent access with a web-based 3D viewer

Our Sectoral Solutions

 **ARCHITECTURE & CONSTRUCTION:** Project visualization and presentation, BIM integration, construction simulations.

 **INDUSTRY & MANUFACTURING:** Factory simulation, product prototyping, AI-based quality control systems

 **REAL ESTATE:** Virtual showroom solutions.

 **RETAIL & E-COMMERCE:** 3D product images.

 Realtime 360° Unreal Engine Panorama

 Unreal engine 5 Web application,

Why 3DVRAI Solutions?

Speed: 70% faster project delivery compared to traditional methods.

→ **Integration:** Seamless API integration with your existing systems.

→ **Cost Advantage:** Reducing operational costs with AI automation

→ **Security:** Enterprise-level data security and privacy standards.

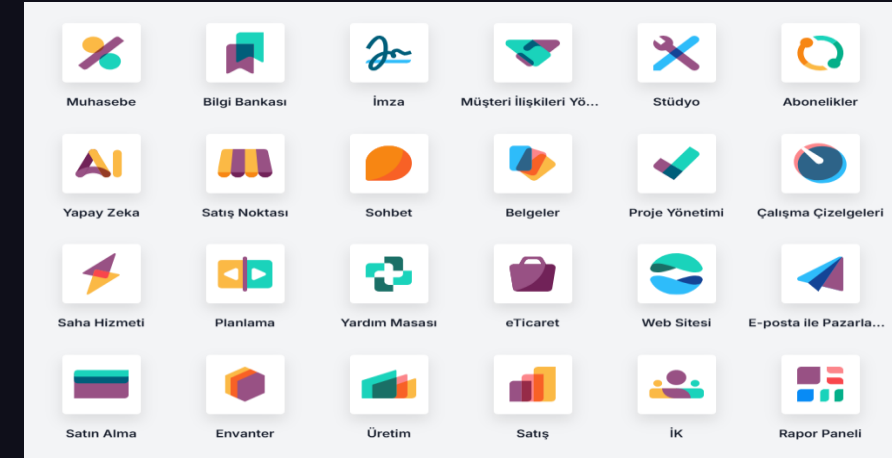

Precision: Goal of zero errors with AI-assisted quality control.

Customization: Scalable solutions tailored to each client.

→ **Support:** 24/7 technical support and continuous update guarantee.

Our Technology Infrastructure

⚡ **AI TECHNOLOGIES:** TensorFlow & PyTorch, OpenAI GPT Integration, Computer Vision Systems, Generative AI Models, Reinforcement Learning.

💰 **3D & VISUAL TECHNOLOGIES:** Unreal Engine & Unity, Autodesk & Revit Integration, WebGL & Three.js, Oculus & HTC Vive VR, ARKit & ARCore.

Our Project Process

 **DISCOVERY:** Needs analysis, project scope definition, and feasibility study.

→ **PLANNING:** Technical architectural design, timeline, and resource planning.

→ **DEVELOPMENT:** Iterative software development process with agile methodology.

→ **TESTING:** Comprehensive quality assurance tests and user acceptance tests.

→ **INTEGRATION:** Seamless integration with existing systems and data migration.

→ **TRAINING:** User training and documentation support.

 **MAINTENANCE:** Continuous monitoring, update, and technical support services.

→ Unreal Engine & Unity

→ Autodesk & Revit Entegrasyonu

→ WebGL & Three.js

→ Oculus & HTC Vive VR

→ ARKit & ARCore

Success Stories & References

3DVRAI IN NUMBERS

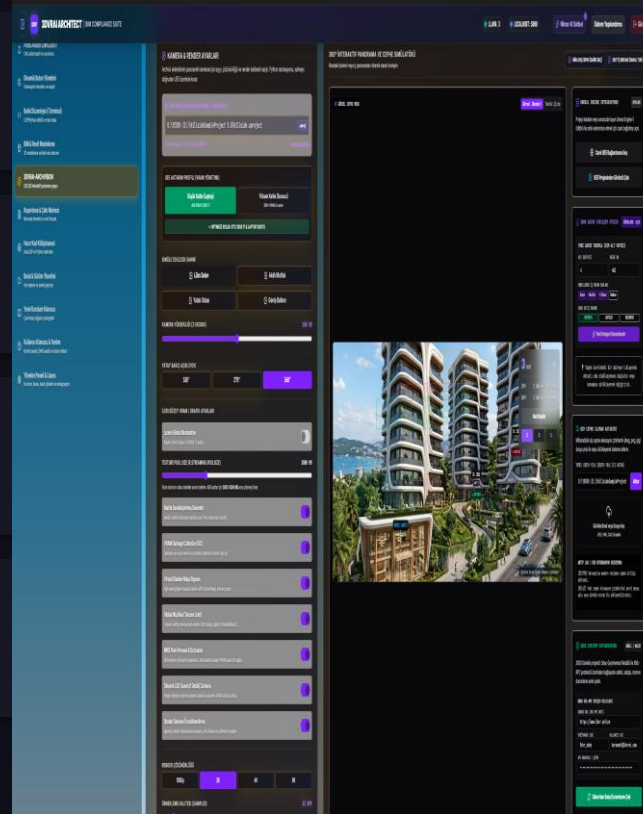

500+ Completed Projects

200+ Happy Customers

50+ Expert Staff

10+ Active Sectors

98% Customer Satisfaction

INDUSTRIES WE WORK WITH

- Leading construction and Real Estate Investment Trust (REIT) companies
- International architecture offices
- Large-scale retail chains
- Industrial production facilities
- Public institutions and municipalities

Digital Transformation Package

STARTER PACKAGE: Basic AI and 3D visualization solutions for SMEs.

PROFESSIONAL PACKAGE: Comprehensive digital transformation tools for medium-sized businesses.

ENTERPRISE PACKAGE: Fully integrated, customized AI platform for large organizations.

CUSTOM PROJECT: Software development service designed from scratch, unique to your organization.

SaaS SOLUTIONS: Access to cloud-based AI tools with a monthly subscription model.

TRAINING & CONSULTANCY: Empower your team on AI and 3D technologies.
